## Notice of Construction Polybutylene Water Service Line Replacement

The Town of Georgina has retained Master Utility Division to undertake the replacement of the existing water services on Hollywood Drive and Tampa Drive as shown in the map below. The scope of work is to replace the existing polybutylene (plastic piping) water service connections with copper. The replacements will occur from the water main underneath the road, up to the property line. The Town's retained engineering consultant Chisholm Fleming & Associates will be assisting the Town with oversight on this project.

### What can you expect?

- This construction work is anticipated to start the week of June 12, 2023. Once the water service connection work is completed on each street, disturbances to driveways, grass, roads, and curbs will be repaired. Construction to be complete in August 2023.
- Construction hours will be from 7 a.m. to 7 p.m. Monday to Friday.
- Camwood Lane will be fully closed for the contractor's storage area. Detour signage will be provided. Other temporary road or lane closures may be required in order to complete the project.
- Temporary water shut offs will be required to switch to the new water service. You will be contacted 72 hours in advance of the shut off.
- Driveways may be temporarily blocked during construction. You will be notified in advance if your driveway will be blocked.
- Thank you for your patience while we complete the construction phase of the project.

If you have questions about the upcoming work, please contact the below or visit [georgina.ca/PolyB](http://georgina.ca/PolyB).
