

Old Shiloh Bridge Assessment Municipal Class Environmental Assessment Study Notice of Study Completion

The Town of Georgina has completed the Municipal Class Environmental Assessment (Class EA Study) to determine the preferred method of improvement to Old Shiloh Bridge East. The recommended solution is to remove the existing bridge and construct a new two-lane bridge. As a separate initiative, the Town will also review and evaluate options to commemorate the existing bridge.

The Town has completed this project through the Schedule 'B' process of the Municipal Class Environmental Assessment (2023). As such, public and technical agency consultation played a key role in developing the study recommendations.

A project file report documenting the planning process undertaken, details of the study recommendations as well as potential impacts and mitigation measures, has been completed and is being made available for public review. The project file report will be available on the Town's website at georgina.ca/OldShilohBridge.

Interested persons may provide written comments to our project team by May 23, 2024. All comments and concerns should be sent directly to the project contacts listed below:

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e. requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name.

Requests should specify what kind of order is being requested (request for conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the ministry is able to efficiently begin reviewing the request.

The request should be sent by May 23, 2024 in writing or by email to:

Minister of the Environment, Conservation and Parks Ministry of Environment, Conservation and Parks
777 Bay St., 5th floor
Toronto ON M7A 2J3
minister.mecp@ontario.ca

and
