

Help us create your

Parks and Trails Master Plan

Parks and trails are opportunities for everyone to be included and engaged in the great outdoors. They are spaces where we can enjoy active or passive activities in our communities.

The Town is creating a plan that will study the existing non-waterfront parks and trails system and facilities, and will identify a blueprint to improve, protect and expand the Town's network of parks, trails, facilities and recreational services for the future.

This is your chance to shape the future of our parks, trails, and open spaces. Whether you're a dog walker, pickleball player, or just someone who enjoys a good sunset, your input matters!
