

GEORGINA

Oct. 24, 2024

Notice to residents

Notice of project commencement

Dear resident/occupant,

The Town of Georgina is undertaking design and construction of replacement of a watermain in your area. The project involves replacement of a portion of existing watermain that has reached the end of its useful lifespan. The project limits are along the Queensway South from Joe Dales Drive to Miami Drive, as shown in the figure below.

The Town has retained EXP Services Inc. as its engineering consultant to prepare the design of the new watermain. Engineering design work is expected to be completed by February 2025, followed by construction in the summer of 2025.

Starting October 30, 2024, EXP's team will be conducting field investigations in the project area. These investigations will include surveying and soil drilling/sampling. These investigations may require temporary lane closures in some portions of the project area on the Queensway South. Two-way traffic and pedestrian traffic will be maintained for the entire duration of any lane closures.

Thank you for your patience as we complete this important project. Should you have any questions or require further information, contact us or visit georgina.ca/QueenswayWatermain.
